## DETAILED ACTION

### Claim Rejections –35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 USC § 102 (a) as being anticipated by POLA CHEM IND INC (JP 2003113100).

POLA CHEM IND INC teaches a composition containing extracts of lotus Nelumbo (Nelumbonaceae), *Euryale ferox* salisb and *Victoria amazonica* of water lily (Nelumbonaceae) used in foodstuffs and pharmaceuticals (see the Abstract).

Therefore, the reference is deemed to anticipate the instant claim above.

Claims 1-3 are rejected under 35 U.S.C. 102 (a) as being anticipated by POLA CHEM IND INC (JP 10017459).

POLA CHEM IND INC teaches a composition comprising Nelumbonaceae Nelumbo (see the Abstract). All of the claimed compositions only require the Nelumbonaceae plant preparation.

Art Unit: 1655

Intended use in the claims is given no patentable weight since they do not further limit the composition. Since this is not a method of use, it does not matter what the composition is used for.

Therefore, the reference is deemed to anticipate the instant claim above.

Claims 1-3 are rejected under 35 USC § 102 (b) as being anticipated by Lee et al [Natural Product Sciences, 7 (4): 107-109, 2001].

Lee et al teach an anti-diabetic constituent from the node of lotus rhizome *Nelumbo nucifera* (Nelumbonaceae) (see the Title)

Therefore, the reference is deemed to anticipate the instant claim above.

Intended use in the claims is given no patentable weight since they do not further limit the composition. Since this is not a method of use, it does not matter what the composition is used for.

### **Conclusion**

No claim is allowed.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
